siminsights

5270 California Avenue, Suite #350, Irvine, CA 92617. Ph: 714 651 4104, rkjha1@siminsights.com

Capabilities Statement

SimInsights provides AI/VR/MR based software and services to enable customers to transform their processes from traditional to immersive (VR/MR), interactive and adaptive (AI-powered). Embracing these technologies as part of digital transformation delivers excellent ROI, time to value, engagement, reskilling and upskilling. Our software - **HyperSkill** - includes a large content library and also enables the non-programmers to rapidly author-publish-evaluate immersive content. As a Small Business with SBIR awards from NSF, Department of Education and NIH, SimInsights has a proven track record of creating innovative technology and flexible solutions for State and Federal clients, as well as industry and academia.

What sets SimInsights apart from the competition?

- Expertise in generative AI powered software
- Innovative platform HyperSkill (no code authoring, publishing, analytics, built-in repository, conversational AI and multiplayer)
- Expertise in creating immersive training for a wide range of knowledge and skills (soft-skills, job competencies, medical, maintenance, etc.)
- Professional services include 3D content creation, learning management system (LMS) integration, data analytics, gen-AI, VR/MR.

Core Capabilities

SimInsights' core competencies include the software development, training simulation development and professional services for AI and VR/MR. SimInsights is a leader in the field of AI-powered immersive training and assessments and has pioneered the application of artificial intelligence (AI) in this field. The team has extensive experience in customizing the platform to meet the specific needs of clients, and using advanced technology to create highly effective solutions.
