siminsights

Bridge the Gap Between Theory & Mastery

All in one platform for next generation learning

skillful

- **1000+ simulations** covering CTE, STEM, soft skills, and more.
- Practice and learn through **virtual labs, AI tutors,** and **interactive visualizations**.
- Master **high-value skills** through realistic, low-risk interactions.

simgenie

- Create 3D simulations with lifelike characters with just a prompt.
- Generate shareable **quizzes, assessments, lesson plans, and more.**
- Teach students to **create** not just consume content.

hyperskill

- Create AI-powered 3D scenarios using **drag-and-drop** tools.
- Build your content once and deploy it across **VR, mobile, and web devices**.
- Capture data to **track learner proficiency** in real-time.
